WEALTH AND YOUR LIFE

In addition to the traditional ways of establishing and measuring wealth, Integral Wealth takes a broader view and approach; we also consider your inner attitudes toward wealth and fulfillment of your life purpose. While these concepts may seem unusual to include in a financial questionnaire, we hope that you can trust our process. If you are willing, please complete the following sentences at a time when you are as free of distractions as possible.

Money is...

The messages about money that I inherited in my childhood are...

My relationship with money since adulthood has been... because...

I feel that I have enough money when...

I make a difference in the world by...

After I am gone, I hope that future generations will remember me as...

If you are married or have a life partner, each member of the couple can answer these questions separately. Thank you for taking the time to complete this questionnaire. Your efforts assist us to gain a complete understanding of your current situation, and enable us to better serve you in your journey forward.
